

Nitro Transfers Funds To Build Garage For City

Planned remodeling of the exterior of Nitro's library has been postponed indefinitely so that money from that project can be used for construction of a city garage. Council reallocated funds from seven areas over two fiscal years to make up an \$89,000 deficit between the bid and the original appropriation.

Fund adjustments were: \$7,700 from recreation, \$18,100 from the library, \$10,800 from street repairs, \$14,300 from storm drain construction, \$10,000 from weedcutting, \$15,000 earmarked for a backhoe, \$14,500 from public safety.

City Recorder Tom Melton said all the cuts were made in revenue sharing funds and except for the library, were excesses set aside for emergencies.

The reallocation gave the city \$199,900 to award the construction contract to Meade Construction Co. of Catlettsburg, Ky. Construction is planned to begin in about 60 days with a projected completion time of five months.

In another matter, Mayor William D. Gibson reported that a social worker will visit the city two days a week to talk with senior citizens. A worker will be in the city Tuesday and Thursday from 8:30 a.m. to 4 p.m. sponsored by the Regional Inter-governmental Council (RIC). In addition, RIC will establish a nutrition center in Nitro using funds administered through the Commission on Aging.

Busing Increases 'White Flight' Sociologist Says

BOSTON (AP) — Sociologist James S. Coleman says "white flight" from cities where courts have ordered school desegregation is 14 per cent greater than normal.

"The greater the disparity between the racial composition of the central city and the suburbs, the greater the acceleration of white loss," Coleman wrote in a five-page affidavit filed in a U.S. Court of Appeals case here Tuesday.

Coleman said that in a city like Boston, which is at least 35 per cent black, a reduction in segregation by busing or other means will accelerate white flight 14 per cent over normal rates.

"What actually occurred in 1974 when Boston did partially desegregate was a total loss of about 16 per cent of white children present in 1973, or an extra loss of 12 per cent beyond the average loss for the five preceding years," Coleman said.

The University of Chicago professor is best known for his authorship of a 1966 federal study supporting the use of school busing to achieve integration.

Lincoln Prosecutor Reveals Resignation

The prosecuting attorney of Lincoln County has resigned to enter private practice.

"Being a prosecutor is just not a pleasurable job any more," said Boyce Griffith, 45, who turned in his resignation Sunday. He was appointed to the \$6,900 a year post in 1971 and was elected in 1972 to a four-year term that began Jan. 1, 1973.

The Lincoln County Court will consider naming a successor when it meets Friday, according to commissioner Louis Abraham. Neither he, Griffith, nor Richard Al-

len — Griffith's assistant who was mentioned in the Lincoln Journal as a likely candidate—would speculate on who will get the job.

"I'd be tickled to death if Boyce Griffith stays," said Abraham.

Allen said, "The county court was somewhat taken aback by Griffith's resignation. I'm kind of sitting here, waiting to see what they'll do."

Griffith complained that each time the Legislature meets, it tacks on additional duties to be carried out by county prosecutors. "There are so many obligations, so many cases to try... you reach a point where you are spread too thin," he said.

Griffith, a Democrat, was chairman of the Public Service Commission in 1971. He was a PSC member for seven years.

Ohio State Workers Headed For Layoffs

COLUMBUS, Ohio (AP) — More state workers will be headed for the unemployment lines soon, the director of the Department of Natural Resources said Tuesday.

Robert W. Teater said 167 DNR employees will be laid off effective Sept. 15, most in the department's Columbus central office.

More will be laid off as the department identifies jobs in outlying counties that can be eliminated with the least immediate impact on the public, he said.

Museum For Apples

HALIFAX, N.S. — Prescott House at Starr's Point in the Annapolis Valley is one of Nova Scotia's oldest and stateliest homes. Charles R. Prescott, called the "father of the apple industry," lived in the house, which now contains an apple-industry museum.
